

COVID-19 Antibody Testing with Blood Donation

**715 DOUGLAS AVENUE
ALTAMONTE SPRINGS, FL**

**Tuesday, June 30, 2020
10:00 am - 3:00 pm**

Donate blood and find out if you have the COVID-19 antibody within approximately 48 hours*. The antibody test is authorized by the FDA and will indicate if your immune system has produced antibodies to the virus, regardless of whether you ever showed symptoms. COVID-19 antibody testing will be performed in addition to the standard infectious disease testing all blood donations receive.

This is not a COVID-19 diagnostic test. Positive test results do not confirm infection or immunity.

Donors will be able to see their results approximately 48 hours after donating by logging into their donor portal at www.oneblood.org. All donors must make an appointment to donate. To schedule your appointment:

https://donor.oneblood.org/donor/schedules/drive_schedule/956777

In addition to donors learning if they have the antibody, OneBlood will be identifying additional people who can be COVID-19 convalescent plasma donors. COVID-19 antibody testing will also provide important statistical information to public health officials. OneBlood is working closely with Florida Governor Ron DeSantis and Florida Surgeon General Scott Rivkees M.D., to provide statistics on the number of people testing positive and the geographical location. This information will help in decision making for reopening the economy.

As a thank you for saving lives, all blood donors will receive a FREE COVID-19 antibody test and a FREE T-Shirt!* Plus, all donors will receive a free wellness checkup, including blood pressure, pulse, temperature, iron count and cholesterol screening.

ID required. Donors must be at least 16 years old. Those who are 16 years old need parental permission. If you have recently donated, thank you. Please visit us when you are eligible to donate again. *One offer per donor, per donation. No cash value. Not-transferable. While supplies last. Item may vary from image shown. Donor must have successful donation to obtain results. If donor does not have account created in donor portal already, they must provide email address to phlebotomist at the time of registration so account can be created. ---Donor will receive email post donation with instructions. The same email provided at registration is used to activate donor portal account.
